hydration *that works*®

KENT

Precision Foods Group

hydration that works®

It's critical for employers to protect workers from heat-related illnesses and injuries when working in high heat environments. For any occupation that involves working in high heat environments, it's important to be aware of environmental conditions and take steps to prepare for dangerous heat hazards, both outdoor and indoor.

Sqwincher® hydration solutions are specifically designed to help prevent worker dehydration and recover from heat stress related issues. Our wide range of unique packaging options provide a perfect way to stay hydrated throughout the day, and with a variety of delicious, refreshing flavors, hydrating has never been more enjoyable!

But it's not just about taste - our products are formulated with essential electrolytes (sodium and potassium) required to replenish those lost through perspiration and respiration. This helps prevent dehydration and heat stress, which can lead to accidents, injuries, and illnesses. Sqwincher® products are internal PPE designed to protect workers from the inside out. Keep them hydrated, safe and productive with Sqwincher® hydration solutions - the ultimate hydration safety "gear"!
