Portable & Powerful Test Pumps

Great for
fire sprinkler
& mechanical
contractors!

- Designed for testing residential and commercial water systems
- Separate drill keeps weight off the pump, making it lightweight and portable
- Almost 30 pounds lighter than the EHTP500
- Requires 18V cordless drill or 1/2" corded drill
 - 1500 RPM drill recommended; pump range is 300 – 2000 RMP
- No drop cord needed when used with a cordless drill
- 15-foot High Pressure Output Hose (included) has quick disconnect feature
- Output pressure adjusts easily from 0-500 psi
- simply by turning the large red knob
- Seal replacement kits available

DPHTP500
in use

Gauge included and
easily readable

DPHTP500

Models	DPHTP500
Item Code	08177
PSI	500

Electric Hydrostatic Test Pumps

PIPE TOOLS & VISES
SINCE 1896

EHTP500 / EHTP500E

EHTP500C / EHTP500CE •
with protective metal cage

- Pressure test water systems such as water meter, plumbing lines, pressure vessels, solar systems and sprinkler systems, in both residential and commercial buildings
- Hose features a quick disconnect with built-in check valve, which allows for convenient setup and portability
- Smooth running, quiet motor
- Each test pump includes a 15-foot (4.6m) high pressure hose (EHTPOUTHOSE) for filling the system
- Pumps are self-priming and work with pressurized or non-pressurized water supply.
- Available with or without protective cage.
